

Corrections:

Presidential symposium is on Monday 26 July.

Symposium on 'Collective Animal Behavior' is on Thursday, 29 July

TALKS		
	Printed Schedule	NEW SCHEDULE
TUESDAY		
3:15pm Communication 5	CANCELLED: Tonic communication in the antipredator behavior of ground squirrels. Owings DH	Replaced with: Androgens modulate song effort in Neotropical singing Mice. Pasch B , George AS, Hamlin HJ, Guillette LJ, Phelps SM (moved from poster 33C)
3:45 – 4:00 Mating & Breeding II	--	Replaced with: To win the battle but lose the war: conflicting selection on aggressiveness in intra- versus intersexual selection. Pruitt JM (moved from Allee, Tuesday 4:15)
4:15 – 4:45 Allee	To win the battle but lose the war: conflicting selection on aggressiveness in intra- versus intersexual selection. Pruitt JM (moved to Tuesday 3:45, Mating & Breeding II)	Replaced with: * Social status is associated with gonadotropin inhibitory hormone (GnIH) in the avian brain Calisi, RM *abstract below, p. 4
WEDNESDAY		
4:15pm Session: Cognition & Learning 1	CANCELLED: Do octopus responses to their mirror image indicate their self-awareness? Mather J , Anderson R	Replaced with: Seismic behaviors of a leafminer, <i>Antispila nysaefoliella</i> (Lepidoptera: Heliozelidae). Low, C. (moved from poster 64B)
4:45pm Session: Social Behaviour	CANCELLED: Behavioral and physiological differences in social and solitary huntsman spiders. LS Rayor	Replaced with: (Ir)Rationality in ants. Sasaki T , Pratt SC (moved from poster 31A)
THURSDAY		
9:00am Sexual selection 2	Androgen response in a unisexual-bisexual mating complex. Gabor CR ,	Corrected authorship Androgen response in a unisexual-bisexual mating complex. Gabor CR , Ma J & Aspbury, A
9:15am Ecology 1	CANCELLED: Ecological conditions favoring the evolution of stronger immune defenses. Hahn C , Kogut MH, Reisen WK,	Replaced with: Gill parasites affect behavior and growth of rainbow Darters. Mathis A , Crane A, Crownhart A, Lisek J, Barnhart C (moved from poster 70B)

	Printed Schedule	NEW SCHEDULE
THURSDAY (CONTINUED)		
11:15 am Session: Ecology 2	CANCELLED: Burrowing behavior of the naked mole rat, <i>Heterocephalus glaber</i> Roland BD , Gobetz KE	Replaced with: Individual traits and pair identity influence extra-pair paternity in the dark-eyed junco. Gerlach NM , Parker PG, Ketterson. ED (moved from poster 85C)

POSTERS

MONDAY		
19A App Anim. Behavior	CANCELLED: Anthropogenic noise affects ungulate behavior in a National Park Angeloni L , et al	Replaced with: Preference for delayed reinforcement is stronger in <i>Betta splendens</i> males than in females. Velkey A , Smith A (moved from 83B)
31A App Anim. Behavior	(Ir)Rationality in ants. Sasaki T , Pratt SC	Poster converted to talk: 4:45pm, Wednesday Social Behaviour
TUESDAY		
40B Turner/ Genesis	<i>Peromyscus californicus</i> scent mark more than the closely related <i>Peromyscus leucopus</i> Becker EA , Meder S, Marler CA MOVED to Poster 60C	Replaced with: Preference for sucrose concentration among floral cues in the <i>Proctolaelaps kirmsei</i> Sanchez ME , Chably L Turner/ Genesis
45B Turner/ Genesis	Personality and age affect understanding of human social cues in <i>Tursiops truncatus</i> Butzen C , Holli B, Kuczaj S, Templeton J	Corrected authorship: Personality and age affect understanding of human social cues in <i>Tursiops truncatus</i> Butzen C , Holli B, Templeton J
50B Turner/ Genesis	Permissiveness of males in a unisexual-bisexual mating complex. Rangel LI , Gabor CR	Corrected authorship: Permissiveness of males in a unisexual-bisexual mating complex. Rangel LI , Gabor CR & Aspbury A
64B	Seismic behaviors of a leafminer, <i>Antispila nysaefoliella</i> (Lepidoptera: Heliozelidae). Low, C.	Poster converted to TALK 4:15pm, Wednesday Cognition & Learning 1
70B Predation & Foraging	Gill parasites affect behavior and growth of rainbow Darters. Mathis A , Crane A, Crownhart A, Lisek J, Barnhart C	Poster converted to TALK: Thursday, 9:15am Ecology 1
83B Cognition & Learning	Preference for delayed reinforcement is stronger in <i>Betta splendens</i> males than in females. Velkey A , Smith A	Moved to Poster 19A (Monday)

	Printed Schedule	NEW SCHEDULE
TUESDAY (CONTINUED)		
116B Sexual selection	--	New Poster: *Genetic mating system of the Black Catbird, <i>Melanoptila glabrirostris</i> . LaPergola, JB , Martínez-Gómez, JE, Curry, RL *abstract, p. 4 below
WEDNESDAY		
33C Communication	Androgens modulate song effort in Neotropical singing Mice. Pasch B , George AS, Hamlin HJ, Guillette LJ, Phelps SM	Poster converted to TALK: 3:15 Tuesday Communication
43C Communication	CANCELLED Vocal performance and aggressive responses in male swamp sparrows (<i>Melospiza georgiana</i>). Moseley DL , et al	--
59C Genetics & Evolution	CANCELLED Evolution of task-based division of labor Goldsby HJ , Ofria C	Replaced with: Turner/Genesis: *Investigating Genetic Relationships within the Gryllotalpidae * Young, R , Sarratt, T, Hill, P *abstract, p. 4 below
60C Neuro/endo /phys mechanisms	Preference for sucrose concentration among floral cues in the <i>Proctolaelaps kirmsei</i> Sanchez ME , Chably L	Moved to poster 40B (Turner/Genesis)
76C Mating/ Breeding sys.	CANCELLED: Distributional shifts of breeding birds in Ontario, Canada. Greenlee ES , Hamilton	--
85C Mating/ Breed sys.	Individual traits and pair identity influence extra-pair paternity in the dark-eyed junco. Gerlach, NM , Parker PG, Ketterson. ED	Poster converted to TALK 11:15am Thursday Ecology 2
99C Social Behavior	CANCELLED: Individual social variation associated with condition and reproductive success in a wild social rodent. Wey TW , Blumstein DT	Replaced with: <i>Peromyscus californicus</i> scent mark more than the closely related <i>Peromyscus leucopus</i> Becker EA , Meder S, Marler CA (moved from poster 40B)
100C Social Behavior	CANCELLED: Relationship between sex, species, and temperament in three macaque species. Sussman AF , et al	--
